## Mentorology & Feminology Life Group

I just love this moment captured: Life Group at its best.

we can have 5,000 "friends" in facebook.  
But how many friends do you share your life with?

Do you know where they are in their stage of life  
at this moment? what is their greatest joy? what is  
their deepest fear?

We may have less than 5 out of the 5,000.

Thank God for friends that we can share life with.
